My request views

My last request

This view is automatically displayed when you create a new list or library but can also be accessed at any time.

Initially this will display a single line showing the item is has been requested:

Create | My last request | My last 10 requests

Will auto-refresh every 5 seconds

Name	Action	Status	Message
Monthly Meetings	Add	Requested	

Step	Status	Message
No data to display		

When the item starts to be processed the *Status* changes and entries begin to appear in the detailed log as each step is completed:

Create | My last request | My last 10 requests

Will auto-refresh every 5 seconds

Name	Action	Status	Message
Monthly Meetings	Add	Processing	

Step	Status	Message
Create library	OK	
Copy library settings	OK	
Copy document template	OK	No template defined in source library

Once completed, the *Status* will state it's completed, and you will be able to click on the Link to the Library/List under the *Name* column:

Create | My last request | My last 10 requests

Will auto-refresh every 5 seconds

Name	Action	Status	Message
Monthly Meetings	Add	Complete	Library created

Step	Status	Message
Create library	OK	
Copy library settings	OK	
Copy document template	OK	No template defined in source library
Copy content types	OK	
Copy columns	OK	
Copy column defaults	OK	

My last 10 requests

This view displays a summary of the last 10 items you've created. Unlike the *My last request*, this view does not automatically refresh. If the last time is currently still creating you can use the *Refresh* button to check the current status.

Create | My last request | My last 10 requests

Refresh

	Name	Action	Status	Message
>	Corespondence	Add	Complete	Library created
>	Monthly Meetings	Add	Complete	Library created

Any item can be expanded to display the creation log:

Create | My last request | My last 10 requests

Refresh

	Name	Action	Status	Message
>	Corespondence	Add	Complete	Library created
v	Monthly Meetings	Add	Complete	Library created

Step	Status	Message
Create library	OK	
Copy library settings	OK	
Copy document template	OK	No template defined in source library
Copy content types	OK	
Copy columns	OK	
Copy column defaults	OK
