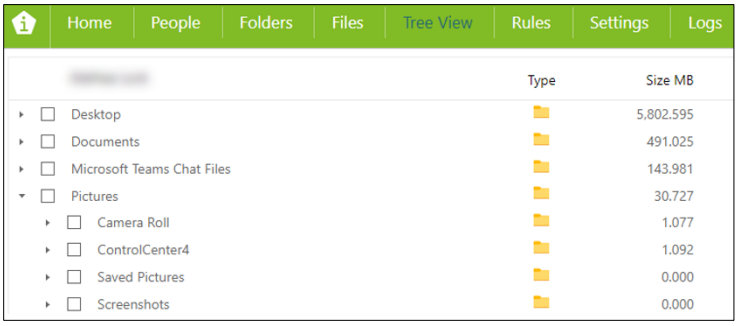
Working with the People Tool

The Folder Tool allows you to

- Filter results
- Group by results
- Sort results
- Create, edit and delete views
- Export results

Clicking on an individual takes you to the Tree View Tool, allowing you to drill deeper into the structure and detail of what is in the individuals OneDrive.



The Tree View Tool allows you to see a complete overview of the structure on an individual's OneDrive, including the files, folders, and shared files.
